

New York is the place to be and the place to be seen; it's where heroes and heroines get their romantic ending and thousands of tourists flock every year. Unfortunately, the flights are often so expensive it leaves the holiday budget running low and means that your best bet is to find a good quality cheap hotel.

//

One such hotel is the Comfort Inn New York; a 7 floor budget hotel complete with air conditioning and Wi-Fi. It can be likened to a standard English Premier Inn, but its major selling point is that it is only two blocks away from Times Square and even closer to the world renowned Madam Tussauds. This hotel boasts both great positioning within the city centre and also fantastic prices.

Close by is the slightly more business orientated Fairfield Inn Hotel which is well decorated and comes complete with high speed internet access and cable as standard. Perfect for those of you wanting a more show-biz holiday, Broadway is a mere 0.3 miles away with the New Amsterdam Theatre and Madison Square Garden also competing for your attention.

If you don't fancy the hustle and bustle of central Manhattan, you can stay at Fort Place B&B on the more suburban Staten Island. There is a free ferry to take you over to lower Manhattan each day and on the way you'll get to take in the Statue of Liberty! Top sights close to this spacious property include the Staten Island Children's Museum and the Colgate Clock.

Those of you after a more homely set up will find the Jersey City B&B a great choice with its complementary breakfast, parking and even bathrobes. This family run B&B is a great place to base yourself from if you're interested in seeing the Ellis Island Immigration Museum or heading over to the Giants Stadium to catch an NFL game or see a concert.

New York is full of attractions and definitely worth a visit at least once in your lifetime and, luckily for your purse, these top quality hotels have great positioning without tourist prices.
